COLD WEATHER AND WIND  
COVER NORTHERN STATES.

WASHINGTON, March 26—The old story predicted by the weather bureau has arrived and has, for this latitude, been the Westinghouse view of the Atlantic coast in the spring tides.

Free weather prevails in much of the latitude and the cold and more or less accompanied by a strong wind, thick in coming north without serious people in some sections.

The sweep of the storm is heading toward the coast and heavy rain is predicted for the southern portion of the coast with light frost in the northern portion tonight.

ternoon.

The blaze started in the Union de-

strong north wind. All buildings  
west of Romana street were destroyed  
or damaged, the destroyed struc-  
tures including nine residences and  
the Southern hotel.

The firemen fought a desperate  
battle against great odds, and at a  
late hour this afternoon it was be-  
lieved the fire was under control, al-  
though a constant watch was kept  
in the fear the blaze might break  
out again.

The total loss will now reach more  
than \$100,000.

## TO INVESTIGATE SCANDAL AT HOSPITAL IN TAMPA.

**SENSATIONAL CHARGES OF MIS-  
MANAGEMENT HAVE BEEN  
MADE AGAINST RELATIVE OF  
MAYOR.**

TAMPA, Fla., March 16—Chairman  
O. Falk, of the hospital committee,  
has stated that he will make a full  
investigation of the conditions al-  
leged to exist at the new Gordon  
Keller Memorial hospital, including  
the alleged mismanagement by Physi-  
cian Sheldon Stringer, a relative of  
Mayor McKay, who is in charge.

Leading physicians who have vol-  
unteered their services in charity  
cases are now talking of withdraw-  
ing their assistance unless a change  
is made in the administration. It  
has been charged that Gerdie Whit-  
field, a negroess, was allowed to be  
operated upon when the hospital is  
intended only for whites. It is  
claimed that David Midgley, an un-  
known pauper, and one Lindsey, a  
flowerist, were allowed to remain in  
the hospital without proper treatment,  
and that they died with scant atten-  
tion. Dr. Stringer would have been  
under fire at last night's council  
meeting, but the attack was called  
off to allow a full investigation. The  
negro woman is alleged to have at  
one time conducted a house of ill  
fame.

## AREOPLANES IN THE CITY FOR FLIGHTS.

**AIR MACHINES ARRIVE;  
NOW BEING OVERHAULED.**

**MACHINISTS ARE HERE AND  
WILL PUT IN TIME GETTING  
AEROPLANES IN SHAPE FOR  
MCCURDY TO USE.**

Two aeroplanes which will be  
used by Aviator J. A. D. McCur-  
dy when he gives his exhibition  
flights here, have arrived in the  
city and will be held here until the  
arrival of the aviator some time  
next week or the first of the next  
week.

The two aeroplanes are accompa-  
nied by two machinists, who will oc-  
cupy their time until the arrival of  
the aviator in overhauling the mo-  
tors and putting everything in good  
condition for the flights here.

The air machines were taken apart  
and packed for shipment and will be  
left in the boxes until the time  
comes for putting them together. The  
motors have been removed and taken  
to a machine shop and will be in con-  
dition to be replaced in the machines  
several days before the flights are to  
be given.

The aviation exhibitions are being  
well advertised throughout the state  
and every indication points to the  
fact that there will be a large crowd  
of people in Daytona week after next  
to witness the flights. Many people  
in the southern resorts are now de-  
laying their start for the north to  
bring them to Daytona for a few  
days that week and many residents  
of the state will come here for the  
attractions.

The race between the automobile  
and aeroplane on the beach will be  
one of the most interesting things  
ever pulled off in this section of the  
south. With the automobile travel-  
ing on the fastest automobile track  
in the world the contest of speed will  
be as interesting as can well be im-  
agined.

## Ormond Notes

ORMOND March 15—Mrs. Barbor and Mrs. Watson, who have been stopping in the Barker cottage for the winter, returned to their home in Vermont this week. They are so well pleased with Florida, especially Ormond, they have promised to come again early next season.

The Uncle Sam of Daytona brought up a goodly number of people Sunday afternoon to the Hotel Ormond, also again in the evening to listen to the excellent music played by one of the finest orchestras in the state. The kindness of the manager, J. D. Price, of the hotel, is entirely appreciated by all.

The large houseboat of A. Lewis of St. Augustine, passed down the river this week, stopping at the hotel dock over Sunday, where your correspondent met the genial owner, who is certainly a gentleman of the old school with a kind welcome and voyage pleasant smile for old friends. L. B. Knox is rushing the oranges out by the carload. His lighter, Belle, is making three and four trips per week from Mound Grove.

Mrs. E. H. Arnold, son, Frederick, and daughter, Adelaide, of West Hartford, Conn., who have been visiting the East Coast as far as Palm Beach, are now stopping at the Clarendon, Seabreeze, for a few days. They will visit W. A. Burr, who is a cousin, soon. They think Ormond is one of the prettiest places on the East Coast.

We are sorry to hear that Tom Sawyer's automobile is out of commission, some of the tubes in the boiler having given out. Tom will soon be on the road again, as a new boiler is on the road by express from the Stanley works. Mr. Sawyer is such a careful driver he is always in demand.

The Peggy L. took a jolly party of the younger people on a moonlight sail down the river Monday night, stopping at Seabreeze a few hours.

## THE BELTED PLAID.

This Was the Original Dress of the Scottish Highlander.

The original dress of the highlander was the belted plaid. This was a piece of tartan cloth, two yards broad and four long, which was drawn around the waist in nicely adjusted folds and tightly buckled with a belt. The lower part came down to the knees in much the same manner as the modern kilt, while the upper part was drawn up and adjusted to the left shoulder, so that the right arm might be perfectly free. This upper part was the plaid, which was used as a covering for the shoulders and body in wet weather, and when the use of both arms was required it was fastened across the breast with a brooch, often curiously enriched. A brooch was also used to fasten the plaid on the left shoulder. To attire himself in the belted plaid required on the part of the highlander no small amount of dexterity. The usual way was to lay it on the floor and after carefully arranging the folds to lie down upon it and then buckle it on. The lower end was fastened at the right hip. The utility of such a dress in the highlands is obvious, for the plaid rendered the man indifferent to storms and prepared to pass a night in the open air in the most inclement weather, while the loose undergarment enabled him to wade rivers or ascend mountains with equal ease. It was thus peculiarly adapted to the warrior, the hunter and the shepherd.—London Mail.

### Something to Interest Him.

It was the evening when her weekly call always made his appearance. "I wish I had something new and entertaining to show him," said the girl to her mother.

"If you'd only mentioned it in time," said her father, "I'd have brought home my account book with the dry goods, millinery, stationery and confectionery bills for the last three months all itemized and balanced. I'll venture to say that would entertain him."—Youth's Companion.

### The First Anthracite Coal.

When the first two tons of anthracite coal were taken into Philadelphia in 1803 the good people of that city, so the records state, "tried to burn the stuff, but at length, disgusted, they broke it up and made a walk of it." Fourteen years later Colonel George Shoemaker sold eight or ten wagon loads of it in the same city, but warrants were soon issued for his arrest for taking money under false pretenses.

### Canine Rudders.

"The dog," said the scientific gentleman, "sometimes steers himself with his tail."

"Uses it to guide his wandering bark, does he?" asked the irresponsible humorist.

## ALL MY PIMPLES GONE

Girl Tells How a Blotchy Skin Was Cleared By a Simple Wash.

"I was ashamed of my face," writes Miss Minnie Pickard of Altamahaw, N. C. "It was all full of pimples and scars, but after using D. D. D. Prescription I can say that now there is no sign of that Eczema, and that was three years ago."

D. D. D. has become so famous as a cure and instant relief in Eczema and all other serious skin diseases, that its value is sometimes overlooked in clearing up rash, pimples, blackheads, and all other minor forms of skin impurities.

The fact is, that while D. D. D. is so penetrating that it strikes to the very root of Eczema or any other serious trouble, the soothing Oil of Wintergreen, Thymol and other ingredients are so carefully compounded there is no wash for the skin made that can compare with this great household remedy for every kind of skin trouble. D. D. D. is pleasant to use, perfectly harmless to the most delicate skin, and absolutely reliable. A 25-cent bottle will give you positive proof of the wonderful effectiveness of this great remedy.

NEW SMYRNA

FLORIDA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements. Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

## An Accommodating Man.

"You see," said the old farmer as he measured out the green tomatoes to the grocer, "I brought along my spade by accident, but it was a good thing I did."

"Wagon got stuck in the road?" was asked.

"Oh, no! I was coming along about a mile back when I saw a feller in a field. He had a crooked stick in his hand, and a little boy with other crooked sticks was following him along. The man was knocking a wooden ball along the ground."

"Hello," says I as I stopped.

"Hello yourself."

"What you doing?"

"Holling a ball in the ninth."

"Hard work, ain't it?"

"Yes."

"Then let me help you a little."

Nothing mean about me."

"And I grabbed the spade, climbed the fence and dug that ninth hole out till it was as big as a barrel, and the feller laid right down and rolled over and over and laughed so much he couldn't find words to thank me."—Rochester Democrat-Chronicle.

## A Great Cannibal Feast.

Probably the biggest cannibal orgy on record is one of which Miss Beatrice Grimshaw tells in "The New Guinea." "In 1858 a shipload of Chinamen was being taken down to Australia. The vessel was wrecked upon a reef close to Russell Island, New Guinea. The officers escaped in boats, but were never afterward heard of. As for the Chinamen, numbering 320, the natives captured them and put them on a small barren island, where they had no food and no means of getting away. They kept their prisoners supplied with food from the mainland and every now and then carried away a few of them to eat until all but one old man had been devoured. This one succeeded eventually in getting away and told something of the story, which seems to have met with general disbelief. True it is, however, on the evidence of the sons of those who did the deed."

## Imprisonment For Debt.

About the middle of the last century the power of imprisoning a debtor for life was taken from the creditor, and it fills one with amazement to think that a system so ridiculous should have continued as long as it did. The three principal debtors' prisons in England were the King's Bench, the Marshalsea and the Borough Compter. In the year 1759 there were 20,000 prisoners for debt in Great Britain and Ireland. The utility of the system was quite as great as its barbarity. More than half the prisoners in some of the prisons were kept there solely because they could not pay the attorneys' costs. Many prisoners had their wives and children with them. There was no infirmary, no resident surgeon and no bath. Imagine a place in these days containing 1,320 persons and no bath and no infirmary! We have indeed "progressed."—Dandee Advertiser.

## How Far Can You See?

What is the farthest limit to which the human vision can reach? Power in his book, "The Eye and Sight," gives the ability to see the star Alcor, situated at the tail of the Great Bear, as the test. Indeed, the Arabs call it the test star. It is most exceptional to be able to see Jupiter's satellites with the naked eye, though one or two cases are recorded, the third satellite being the most distinct. Peruvians are said to be the longest sighted race on earth. Humboldt records a case where these Indians perceived a human figure eighteen miles away, being able to recognize that it was human and clad in white. This is probably the record for far sight.

**SEABREEZE and DAYTONA BEACH**, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging sea of the Atlantic Ocean to the Halifax River, the beautiful tide water stream that sets them apart from Daytona with which they have close communion by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every winter's straight-away record has been made, and all these records it continues to hold without rival.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilizing some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

**Why They Got the Freedom of the City**  
Extracts from old records, showing how people had earned the honor in former days, were read at Canterbury by Alderman Mason when the mayor and ex-mayor were granted the freedom of the city. One citizen received the freedom for "undertaking to serve as cook at every mayor's Michaelmas feast," another "because he cured Nicholas Johnson's leg" and a third "because he married a widow with a large family."—Fall Mall Gazette.

### ORMOND-ON-THE-HALIFAX

ORMOND is 6 miles north of Daytona, and on the west side of the Halifax River. The location is a perfect one for drainage and for sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach. Many fine homes are maintained on either side of the river, most of them surrounded by subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

Ormond has many attractions—excellent automobile, good fishing, safe boating, and many pleasant drives.

At Ormond Beach is located the large Hotel Ormond, and its lower sister, the Ormond Inn. The former occupies a position overlooking the Halifax, and the latter has as its outlook the magnificent beach and the broad Atlantic.

Besides the broad, smooth beach there are many drives for carriages and automobiles around Ormond—drives to and through groves of golden oranges; drives through tropical forests to Spanish ruins; drives to the ancient Causeway built by slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of the most interesting of these plantations is at the headwaters of the Halifax and known as Moundgrove. It is one of the finest orange groves on the East Coast of Florida and is amid very pretty surroundings. Moundgrove is on the Daytona-Saint Augustine road.

## ALBERT HALL, LONDON, CHRISTIAN MASS MEETING.

The World's Largest and Finest Auditorium—Audience Estimated at Seven Thousand—Which is the True Gospel and What Must Our Creeds Sacrifice in Order to Christian Union?

London, April 2.—Pastor Russell addressed the huge Convention at Royal Albert Hall to-night. Few preachers are so well known in Great Britain as he. Many of the leading newspapers, both here and in America, publish his weekly discourses. He took for his text, "I am ashamed of the Gospel of Christ" (Romans 1, 16). He said:—

Let us approach our subject reverently! With reverence, because many of our creeds are white with centuries. They were the creeds of our fathers and mothers. They must not be handled ruthlessly, unkindly. But we must approach the subject with courage because it is a Christian duty. For long centuries God's people have been divided into sects and parties, separated by credal fences. At one time they gloried in their differences, and destroyed one another in their zeal for what they believed to be the Truth.

Now we see more clearly that none of our creeds are without flaw. Now we are willing, yes, glad, to take the Truth wherever we find it and to acknowledge the error, though it be our own. The oneness of the Church requires that we should have this courage! The interests of the world demand it! We have come here realizing that the time for covering errors, of which we are ashamed, is past; that the time for reverencing God and His Word has come.

### Are We Not All Christians?

Our topic must be, What is the Gospel of which St. Paul was not ashamed—"the faith once delivered unto the saints"—"one Lord, one Faith, one Baptism" (Ephesians iv, 5).

The speaker showed that the Roman Catholic Church, in order to unite with others, would need to cut out of her creed everything not found in the Bible—prayers to saints, homage to pictures and images, the sacrifice of the mass, holy candles, holy water, Purgatory, the infallibility of the Pope and the general theory that the clergy alone are the Church and brethren of Christ, and the laity the children of the Church.

The Protestant Episcopal creed next had attention. Little that was objectionable was found therein. One point alone could cause any hesitancy, he was sure—Apostolic Succession. He urged that no Scripture could be found sustaining this theory in clear terms. On the contrary, he gave numerous citations in proof that the twelve Apostles only possessed plenary inspiration and were directly under Divine control—St. Paul taking the place of Judas.

### Election—Foreordination—Predestination.

The Westminster Confession, the foundation of the majority of Protestant creeds, distinctly emphasizes the teachings of Brother Calvin. We can all agree that the words elect and election, predestinated and foreordained, are Scriptural terms and that a truth must underlie and pervade them. But it will give none of us any pain to repudiate entirely the peculiar deductions attached to these words by Brother Calvin. Surely we are all prepared to deny that a God of Justice, Wisdom, Love and Power foreordained and predestinated from before the foundation of the world that everybody but the "elect" should go to eternal torment.

Baptists and Disciples, Pastor Russell declared, have something further to surrender. Surely they may keep water immersion. Surely they may claim that, more fully than sprinkling, it represents the underlying thought expressed in the symbol. But the unreasonable and unscriptural thing which they must renounce in favor of union is that water immersion is a test of membership in the Church of Christ. They must admit that Cornelius, at least, was accepted of the Lord and begotten of the Holy Spirit before his baptism in water (Acts x, 47).

Baptists and Disciples should see the absurdity of claiming that only the water immersed are members of the Church of Christ, for thus, according to their theory, they would be dooming to eternal torture as unsaved all of their Christian brethren who had not been immersed. Surely Baptists and Disciples, therefore, may be expected to promptly and heartily repudiate these test features of their theories.

The Methodist Creed was next examined. It was commended for the prominence it gives to the Love of God and His forbearance with the misrepresentations of those who honestly seek to be His children. The speaker asked the Methodist brethren to forego the worship of their Church and to give the more homage to the Lord. He admitted the masterfulness of their organization, but reminded them that their Episcopacy is not modeled after anything shown us in the New Testament. It does not even pretend to be any authority along the lines of Apostolic Succession. It must admit that the establishment of its Bishopric was, at least, semi-fraudulent—a supposed emergency, born of error that an Episcopal ordination was necessary to authority to preach.

## INSURED AGAINST BANDITS.

But Robbers Themselves Conducted the Profitable Business.

The bandits of Manchuria and Mongolia have adopted a new way of acquiring at least a portion of the goods of the traveler. These mounted highwaymen in bands not only constantly attack the peaceful native population, but even rob travelers in broad daylight.

As a provision against this danger an insurance bureau where one buys a banner at a cost of about one-five-hundredth of the value of the property to be insured is established there.

This banner carried by a traveler will save him from the bandits' attack, for, curiously enough, they themselves conduct this insurance business. But it has its limitations.

"We paid our premium at the insurance bureau," says a Japanese traveler, "secured a red banner, and our party then started from Harbin, using several sturdy ponies for ourselves and the carrying of our luggage. After traveling about ten miles we reached a small town called Takin."

"Several of our customers came to see us in the evening and warned us that there were many mounted bandits in the neighborhood. When we told them there was no cause for anxiety on their account because of the insurance they informed us that by it our safety was guaranteed only on the highways, but that the bandit bureau was not responsible for what might happen inside of any building."

### Where Money Buys Life.

The rich Chinaman if condemned to death easily procures a substitute. Some poor wretch, without money to secure his spirits from becoming wandering devils, with the price of his miserable life can purchase proper care for his spirit. Anything, in fact, can be done if you have the money. It is this belief that causes the Chinaman to commit suicide by taking his life on the premises of his enemy to take vengeance on him. His spirit, he believes, will forever haunt him. There is another reason also. He knows that as sure as fate the officials will under such circumstances come down upon his enemy and strip him of everything. Poor Chinese have been known to sell everything they possessed, tear down their houses to sell the timber, sell or rent out their wives and children and even sell themselves to procure money for the proper rites for the peace and comfort of the ancestral spirits. One thing alone a Chinese will not do—namely, sacrifice his son.—Kenneth F. Junior, M. D., in National Geographic Magazine.

### Perfumed.

"Should a man use perfumery?" "Well, a trace of gasoline is permissible nowadays."—Exchange.

### Preventive.

The Millionaire—Doctor, is it absolutely necessary to remove my appendix?

"Not absolutely, but it is safer to begin with some simple operation like that."—Life.

### An Indication.

"Is your daughter getting on well with her music?" "I guess so. The neighbors are getting so they speak to me civilly again."—Toledo Blade.

### Before and After.

Pendleton—What are the two greatest wishes of a medical student? Kefer—Give it up. What are they? Pendleton—To put "Dr." before his own name and "Dr." after the names of other people.

His death came as a shock to the people who have been in close touch with him as he had been ill but a short time and his condition was not considered really critical. The public career of Governor Bloxham extended through a period of more than 40 years and covered some of the most critical periods in the history of Florida. His record began when he was elected a member of the state legislature in 1880 and ended when he finished his last four years as governor in 1900.

#### CHANGE OF SCHEDULE

TO BE MADE NEXT WEEK.

ACCOMMODATION TRAIN FROM NEW SMYRNA TO JACKSONVILLE TO SUCCEED PULLMAN TRAINS TAKEN OFF 20th.

A change of schedule is to be made on the F. E. C. railway next Monday, March 20. After that date trains No. 33 and No. 34 will be discontinued, No. 34 making the last trip north on that day, while No. 33 will be held in Jacksonville.

Trains No. 88 and No. 98 will be discontinued after April 3rd.

On March 20th, however, an accommodation train will be put into service from New Smyrna to Jacksonville, leaving New Smyrna at 1 p. m., and arriving in Jacksonville at 6 p. m., in plenty of time to make western connections, the earliest of which is the Southern at 8:05 p. m. This allows ample time for transfer of baggage, as well as passengers.

Leaving New Smyrna at 1 o'clock this train should arrive at Daytona at from 1:20 to 1:30 p. m. This allows time for dinner here before departure and the schedule is such that the making of connections for all western points is assured, in fact it is expressly for this purpose that the new train is put on and all patrons of the road will find it much more convenient than the morning trains.

Hens' Teeth. "Your composition, as a whole," said the professor of literature, "is a great deal of praise, but I have a great deal of criticism, as the hens' teeth; it is not really a mouth, but also suggestive of future fading, for it is common knowledge that hens' teeth do not exist."

"I do not see why they don't exist," muttered the professor. "Don't combs have teeth, and don't hens have combs?"
